

The University of Missouri Food Animal Ambulatory Faculty Position (2021)

The University of Missouri College of Veterinary Medicine, Department of Veterinary Medicine and Surgery, seeks applications for a non-tenure track faculty (NTT) position in Food Supply Veterinary Medicine at the Clinical Instructor, Assistant, Associate, or Full Professor rank, teaching track. Details about position, MU and Columbia are posted online at <https://hrs.missouri.edu/find-a-job/academic> .

The University of Missouri has a broad-based food animal program that includes in-house clinical services, field service, and a production/regulatory/public health service. This position will primarily service the latter two services. However, some time may be dedicated to the in-house clinical service as dictated by scheduling needs. The person filling this position will be expected to provide care of patients in the clinic and the field when assigned to emergency duty. The successful candidate will contribute meaningfully to carrying out the missions of the Food Animal Section, Department, and College by:

- Participating in the clinical curriculum and providing service to clients;
- Interacting with the animal-owning public, referring veterinarians, students, commodity groups, extension faculty, animal science faculty, and the Missouri Department of Agriculture;
- Sharing after-hours call with other faculty and house officers;
- Participating in intern, resident and graduate student training;
- Participating in clinical / production- based research.

Didactic teaching, outreach, or administrative service will make up the remainder of the appointment. Distribution of effort will be based on the successful candidate's qualifications, career goals, and the needs of the food animal section.

Initial appointment will begin as soon as an acceptable candidate can be identified and hired.

Qualifications

- DVM or equivalent degree
- Eligibility for professional licensure (faculty or regular license) to practice Veterinary Medicine in the State of Missouri within 3 months of their start date
- Eligibility to obtain / maintain DEA and BNDD registrations once they are licensed to practice
- Eligibility for federal accreditation by the USDA
- Diplomate status or eligibility for board certification in a specialty relevant to food supply veterinary medicine is desirable, but not required
- Graduate training is desirable, but not required

Application materials must be submitted online: <https://hrs.missouri.edu/find-a-job/academic> Interested candidates should be prepared to attach:

1. a letter stating professional interests and career goals;
2. professional transcript(s);
3. contact information (including email addresses) for three references; and,
4. a curriculum vitae.

If you have questions about the online application process, please consult Human Resources web sites: email umshrsupport@umsystem.edu or call (573)882-7976.

Search Criteria

Candidates will be assessed based upon educational and professional achievement. Clinical experience, communication skills, a commitment to diversity and inclusion and letters of reference will all be considered in selection of a candidate. The potential for the candidate to work within the framework of the food animal section will also be assessed, as will specialty, teaching, and research experience. We are seeking a candidate with interest in practicing up-to-date medicine/surgery and a passion for teaching.

Please contact Dr. Austin Hinds, 573-882-6857, e-mail hindsca@missouri.edu if you have questions about the position.

Applications will be reviewed until a suitable candidate is identified.

Salary and Benefits

Salary will be commensurate with education, training and experience.

These positions are eligible for University benefits. The University offers a comprehensive benefits package, including medical, dental and vision plans, retirement, and educational fee discounts. For additional information on University benefits, please visit the Faculty & Staff Benefits website at <http://www.umsystem.edu/totalrewards/benefits>.

Equal Employment Opportunity

The University of Missouri is an equal access, equal opportunity, affirmative action employer that is fully committed to achieving a diverse faculty and staff. Equal Opportunity is and shall be provided for all employees and applicants for employment on the basis of their demonstrated ability and competence without unlawful discrimination on the basis of their race, color, national origin, ancestry, religion, sex, sexual orientation, gender identity, gender expression, age, genetic information, disability, or protected veteran status. For more information, call the Associate Vice Chancellor of Human Resource Services/Affirmative Action officer at 573-882-4256.

To request ADA accommodations, please call the Disability Inclusion and ADA Compliance Manager at 573-884-7278.

Diversity Commitment

The University of Missouri is fully committed to achieving the goal of a diverse and inclusive academic community of faculty, staff and students. We seek individuals who are committed to this goal and our core campus values of respect, responsibility, discovery and excellence.

Our Campus and Our Community

MU's Veterinary Health Center (VHC) is a state-of-the-art teaching and medical services facility for companion animals as well as livestock. Columbia, MO is an ideal location for such a teaching hospital. The population of central Missouri and reasonable proximity to St. Louis and Kansas City provide for a

robust small animal emergency and referral caseload. Missouri is a strong agricultural state with large numbers of horses, cattle, hogs, and poultry.

MU is a nationally competitive, global university. Many states fund separate research and land-grant universities, but Missouri combines those roles at its flagship institution. MU is both a land-grant university with a statewide mission of service to citizens and Missouri's largest public research university. Mizzou is one of only five universities nationwide that offers law, medicine, veterinary medicine and a nuclear research reactor on one campus.

MU is a national leader in comparative medicine, in which researchers collaborate by sharing discoveries, innovations and treatments for humans and animals. For more about the College of Veterinary Medicine and our impact on Missouri, the nation and the world, go to:

Studies consistently rank Columbia as a top city in which to live for educational facilities, health care, technological savvy, economic growth, and cultural opportunities. The cost of living is still affordable, whether you prefer an apartment in the city, a farm on a country road or a family home near a top notch school. With a population of 108,500, Columbia is located in the heart of Missouri on Interstate 70.
