

## **Position Announcement Chair, Veterinary Clinical Sciences The Ohio State University**

The Ohio State University College of Veterinary Medicine invites nominations and applications for the position of Chair, Department of Veterinary Clinical Sciences. The three primary missions of the Department are to benefit society through professional and graduate veterinary medical education, protect animal and human health, and advance medical knowledge through research and scholarship. The college environment includes the departments of Veterinary Preventive Medicine and Veterinary Biosciences and is part of the most comprehensive single-campus health sciences center in the United States, consisting of Colleges of Medicine, Dentistry, Nursing, Optometry, Public Health, Pharmacy, Allied Medical Professions, and a National Institutes of Health-designated Comprehensive Cancer Center. The campus is situated in the heart of Columbus, a vibrant urban and suburban community that has all the amenities one would expect from the fifteenth largest city in the country.

Departmental resources and opportunities include:

- 62 faculty in the disciplines of anesthesiology, community practice, equine medicine and surgery, food animal medicine and surgery, neurology, radiology, small animal medicine with its various subspecialties, small animal surgery, and theriogenology
- a diverse caseload exceeding 33,000 cases per year that supports a strong clinical experience for 4th year veterinary students and high quality clinical residency programs covering the majority of specialties; there are currently 46 residency positions
- Galbreath Equine Center and an imaging center that includes digital radiography, ultrasound, helical CT, nuclear medicine, and a new 3T on-site MRI scheduled for installation by end of 2014
- Planned implementation of a hospital expansion, slated for autumn 2014
- For more information on the department, see <http://vet.osu.edu/clinical-sciences>

The preferred candidate will have the following credentials and experiences:

- DVM or equivalent degree, Diplomate of an AVMA recognized specialty board
- Demonstrated achievement in teaching, service and/or scholarship
- administrative experience, communication skills, and leadership qualities that facilitate faculty and resource development

Interested individuals should submit a curriculum vitae, letter of intent, and the names of 5 individuals (with complete contact information) from whom references may be solicited. Faculty academic rank will be determined by qualifications and distinguished record of scholarly activity. Salary is negotiable. Evaluation of applications will begin September 1, 2014 and will continue until the position is filled. Correspondences should be sent to Dr. Michael Oglesbee, Professor and Chair of Veterinary Biosciences, The Ohio State University, 1925 Coffey Rd., Columbus, Ohio 43210; 614-292-9672; email [oglesbee.1@osu.edu](mailto:oglesbee.1@osu.edu)

The Ohio State University encourages applications from individuals with disabilities, minorities, veterans, and women. EEO/AA employer. The Ohio State University, in an effort to promote the health and well-being of all of its employees, students, and visitors, has chosen to maintain a tobacco-free/smoke-free environment.
